DESERT SUNLIGHT SOLAR FARM
CULTURAL AND PALEONTOLOGICAL RESOURCES
WEEKLY MONITORING SUMMARY REPORT

WEEK OF DECEMBER 23, 2012 to DECEMBER 29, 2012

CULTURAL RESOURCES MONITORING

Construction work was conducted Wednesday through Friday of this week. No construction activities took place on Monday and Tuesday due to the Christmas holiday. Earth moving activities occurred throughout the week in Block 15 of the Construction Phase 4 Area; and Block 7 of the Construction Phase 5 Area. The weekly activities are summarized below:

WEDNESDAY, DECEMBER 26

- Block 7: Vegetation removal
- Block 15: Vegetation removal

THURSDAY, DECEMBER 27:

- Block 7: Vegetation removal

FRIDAY, DECEMBER 28

- Block 7: Vegetation removal

No ground disturbing activities were conducted on Sunday (12/23), Monday (12/24), Tuesday (12/25), or Saturday (12/29). Two new finds, including one prehistoric isolate (DSM-090) and one prehistoric site (DSM-091) were recorded this week. DSM-090 (one jasper flake) was recorded on Wednesday (12/26), and DSM-091 (three chert flakes and one chert shatter) was recorded on Thursday (12/27). Intensive survey by the Cultural Resources monitor and Tribal monitor was conducted around each find, but no additional materials were encountered. The finds were recorded in detail and collected by the Lead Cultural Resources Monitor. An Isolate Record and Archaeological Site Record are being prepared and will be provided to the BLM Archaeologist.

PALEONTOLOGICAL RESOURCES MONITORING

Paleontological monitoring was conducted during earth-moving activities in paleontologically sensitive Pleistocene Nonmarine sediments (Qc) and Quaternary alluvial sediments (Qa) in Construction Phase 4 and 5 Areas on Wednesday (12/26)

through Friday (12/28). No monitoring was conducted Sunday (12/23) Monday, (12/24) Tuesday (12/25) or Saturday (12/29). No significant fossil resources were found this week.
