CULTURAL AND PALEONTOLOGICAL RESOURCES
WEEKLY MONITORING SUMMARY REPORT

WEEK OF OCTOBER 28, 2012 to NOVEMBER 3, 2012

CULTURAL RESOURCES MONITORING

Construction work was conducted Monday through Friday of this week. Earth moving activities occurring throughout the week consisted of the excavation of trenches and drilling in the Switchyard. Monday through Thursday, these activities were accompanied by the excavation of whips, trenches, intersections and backfilling with the padder in Block 17, of Construction Phase 2 Area. On Monday and Tuesday these activities were accompanied by site prep in Block 13 of Construction Phase 3 Area. Monday through Wednesday additional activity took place with the blade in Block 16 of Construction Phase 2 Area. Tuesday through Thursday, there was additional site prep in Block 3 of Construction Phase 3 Area. On Tuesday, additional activity consisted of monitoring in Basins 2-3, and 2-4. Additional activity on Wednesday and Thursday consisted of the excavation for combiner boxes in Block 20 of Construction Phase 2 Area. Thursday's additional activity consisted of site prep for a road trending north through Blocks 3, 4, 5, 6, 7, and 8, encompassing Construction Phase 3, 4 and 5 Areas. The activity taking place on Friday consisted of the excavation of trenches and drilling in the Switchyard.

No ground disturbing activities were conducted on Sunday (10/28) or Saturday (11/03). All activities were monitored by Cultural Resources and Tribal monitors and no new finds were recorded this week.

PALEONTOLOGICAL RESOURCES MONITORING

Lead Paleontological Monitor: Maria Espinoza-Robinson
Paleontological Monitor: Marlon Oseguera

Paleontological monitoring was conducted during excavations for trenches, vaults, whips, and other earth-moving activities in paleontologically sensitive Pleistocene Nonmarine sediments (Qc) and Quaternary alluvial sediments (Qa) Monday through Friday of this week. No new fossil resources were recovered this week.
