DESERT SUNLIGHT SOLAR FARM
CULTURAL AND PALEONTOLOGICAL RESOURCES
WEEKLY MONITORING SUMMARY REPORT

WEEK OF JUNE 10, 2012 to JUNE 16, 2012

CULTURAL RESOURCES MONITORING

Lead Cultural Resources Monitors Victoria Harvey and Erik Landis
Cultural Resources Monitors: Amanda Lloyd, Andrew Myers, Hannah Hicok, Jennifer Richards, Jessica Ramirez, Joanne Gilby, Josh Dunn, Kevin Weeks, Scott Underwood and Steven Wintergerst

Construction work conducted Monday through Thursday of this week consisted of soil preparation within Block 16 of the Construction Phase 2 Area, along with the excavation of basins along the southern portion of the Solar Farm Area. On Monday through Wednesday, these activities were accompanied by the excavation of basins along the western portion of the Solar Farm Area. On Tuesday and Wednesday the excavation of basins, and soil preparation activities, were accompanied by the excavations of basins within the Switch Yard and Block 16 of the Construction Phase 2 Area. No ground disturbing activities were conducted on Sunday (06/10), Friday (06/15), or Saturday (06/16).

All activities were monitored by Cultural Resources and Tribal monitors and no cultural materials were found this week.

PALEONTOLOGICAL RESOURCES MONITORING

Lead Paleontological Monitor: Maria Espinoza-Robinson
Paleontological Monitor: Marlon Oseguera

Paleontological monitoring was conducted during earth-moving activities in paleontologically sensitive Pleistocene Nonmarine sediments (Qc) and Quaternary alluvial sediments (Qa) Monday through Thursday of this week. Earth-moving activities included the excavation of basins along the southern and western portions of the Solar Farm Area, within Block 16 of the Construction Phase 2 Area, and within the Switch Yard. Additional excavation activities included soil preparation activities within Blocks 16 of the Construction Phase 2 Area. No significant fossils were located this week.
