1700 - Depart Desert Cente
1800 - Arrive hotel
1800 - 1900 - Purchased two (2) GMRS hand held radios, time cards, reports, admin) - Total 14 - 1/4 hours

Comments:

- UXO Support consisted of:
  - Continued monitoring of construction and excavation activities in the Move On Area, and Area 1A.
  - Escort of Biologists and fence builders in Areas 1B, 1C, and along main North/South road just North of the main entrance to the work site.
- No UXO found.
- Eight (8) pieces of expended civilian style fireworks were found along the main North / South road, just North of the main entrance to the work site.
  - These items consisted of seven (7), one inch diameter X five inch long cardboard tubes, and one (1), three inch diameter X 5 inch long cardboard tube. The fireworks appear to have been expended, however, we cannot rule out the possibility of some residual propellant.
  - The Riverside County Bomb Squad was notified and they will pick up the items at 8:00 am on Thursday, 9/22. The CH2MHill oversight monitor was notified as per the work plan, as was the site construction sup, lead safety, operations manager, and site manager.
  - The items were discussed at length with all who attended the 3:00 pm daily production meeting. We will bring it up with everyone at the morning tailgate safety brief tomorrow morning and discuss the potential hazards associated with commercially available fireworks.

Weather: Low temperature today was 69F, High temperature today was 105 F

Thursday, September 22, 2011

Work Schedule:
0445 - Depart Hotel
0555 - Arrive Desert Center
0600 - Morning Safety Brief
0630 - Transit to work site
0700 - Meet with Sheriff to turn over fireworks tubes.
1200 - Field lunch
1230 - Resume Construction Support
1500 - R. Kelly attended daily production meeting. Found out we will need to be on site for at least a half day tomorrow (Friday) to support well drilling operations.
1645 - Depart work site
1700 - Depart Desert Center
1800 - Arrive Hotel
1800 - 1830 - Time cards, reports, admin - Total 13-3/4 hours

Comments:

- UXO Support consisted of:
  - Briefed everyone at the morning safety meeting about the potential hazards associated with commercially available fireworks. The bottom line being, "if you did not put it there, don't touch it or pick it up".
  - Continued monitoring of construction and excavation activities in the Move On Area, and Area 1A.

- Escorted Biologists and fence builders along the main north/south road just north of the main entrance to the work site, as well as the south border of the site heading east.

- No UXO or MEC was found.
- The Riverside County Sheriff's office bomb squad picked up the fireworks tubes that were found yesterday.

Weather: Low temperature today was 75 F, High temperature today was 106 F

Friday, September 23, 2011

Work Schedule:
0445 - Depart hotel
0555 - Arrive Desert Center
