No work on site

Monday, August 22, 2011

Work Schedule:
0415 Depart Hotel
0520 Arrive Desert Center
0530 Morning Safety Brief
0600 Shuttle to work site
0610 Arrive Solar Site commence operations
1100-1130 field lunch
1130-1610 resume operations
1620 Shuttle to Desert Center
1630 Depart Desert Center
1745 Arrive hotel
1735-1815 Time Card, reports, admin, purchase water

Comments:
- Construction of the Desert Sunlight Solar Farm continued.
- UXO support consisted of inspecting areas of excavation searching for signs of MEC or munitions debris.
- To date there has been no MEC or Munitions debris observed in the construction area.
- Completion of the turtle fence is anticipated early next week this is required prior to construction activities.
- Major construction activities anticipated to begin Thursday 25 Aug. 18, 2011

Weather: High temperature today was +115 F.

Tuesday, August 23, 2011

Work Schedule:
0415 Depart Hotel
0525 Arrive Desert Center
0530 Morning Safety Brief
0600 Shuttle to work site
0610 Arrive Solar Site commence operations
1100-1130 field lunch
1130-1510 resume operations
1520 Shuttle to Desert Center
1530 Production meeting
1600 Depart Desert Center
1715 Arrive hotel
1715-1745 Time Card, reports, admin,

Comments:
- Construction of the Desert Sunlight Solar Farm continued.

- UXO support consisted of inspecting areas of excavation searching for signs of MEC or munitions debris.
- At the request of a site worker, examined two objects with shapes similar to ordnance. One was a tool part (cast iron) the other an end of a tent pole (plastic)
- To date there has been no MEC or Munitions debris observed in the construction area.
- Completion of the turtle fence is anticipated this week. This is required prior to construction activities.
- Major construction activities delayed and anticipated to begin Monday, 29 Aug. 18, 2011.

Weather: High temperature today was +118 F.

Wednesday, August 24, 2011

Work Schedule:
0415 Depart Hotel
0525 Arrive Desert Center
0530 Morning Safety Brief
0600 Shuttle to work site
0610 Arrive Solar Site commence operations
1100-1130 field lunch
1130-1510 resume operations
1520 Shuttle to Desert Center
1530 Production meeting
1600 Depart Desert Center
1715 Arrive hotel
1715-1745 Time Card, reports, admin

Comments:
- Construction of the Desert Sunlight Solar Farm continued.
- UXO support consisted of inspecting areas of excavation searching for signs of MEC or munitions debris.
- To date there has been no MEC or Munitions debris observed in the construction area.

Weather: The area has experienced extreme heat conditions the past few days with temperatures exceeding 115-118 F. Measures are being taken for the heat such as insuring plenty of hydration and shaded break Areas. We assisted the Site Safety in the erection of two shade coverings on the outer perimeter of the work area.

Thursday, August 25, 2011

Work Schedule:
0415 Depart Hotel
0525 Arrive Desert Center
0530 Morning Safety Brief
0550 M Malko supports Geophysicist along transmission line route
0600 Walden shuttle to work site
0610 Walden arrive Solar Site commence operations

1100-1130 field lunch
1130 resume operations
1430 Geophysics testing complete return to Solar site 1.
1500 Malko attended production meeting
1530 Walden Shuttle to Desert Center
1600 Depart Desert Center
1715 Arrive hotel
1715-1745 Time Card,reports, admin

Comments:

- Construction of the Desert Sunlight Solar Farm continued.
- UXO support was split into two areas today.
- Cliff Walden monitored excavation on the solar site. To date there has been no MEC or Munitions debris observed in the construction area.
- Michael Malko supported Geophysical testing along the transmission line corridor. A radius of approximately 300 feet was searched around each of the four test sites. No MEC or Munitions debris was observed.

Weather: High temperature today was +113 F.

Friday, August 26, 2011

Work Schedule:
0445 Depart Hotel
0555 work area
0600 Morning Safety Brief/tailgate brief
0605 Commence operations (Walked with Biologist team searching and excavating turtle burrows)
1130 Operations complete
1145-1215 lunch in Desert Center
1215 Depart Desert Center
1325 Arrive hotel
1325-1400 Time Card, reports, admin

Comments:

- Construction of the Desert Sunlight Solar Farm continued.
- UXO support consisted of walking over the area designated to be the office and lay down area for the Solar project. The entire surface area was visually searched and no MEC or munitions debris was observed.

Weather: High temperature today was +113 F.
