

DESERT SUNLIGHT SOLAR FARM WEEKLY CULTURAL RESOURCES MONITORING SUMMARY REPORT

Week of August 22-26, 2011

Construction work this week ran from Monday through Thursday and again was primarily limited installing fence around the Move-On Area and the eastern boundary of Phase 1A and excavating tortoise guards at two entrances to the Move-On Area. On Thursday only, staking was conducted along the Gen-Tie line in preparation for the geotechnical investigation. All ground-disturbing activities were observed by cultural resources and Tribal monitors. No cultural resources were encountered.
